**OXIDE SERIES**
Made to look like weathered steel with a rust-like appearance, you can combine the aesthetic appeal of aged metal with the advantages of brand new metal cladding with a PVDF finish.

| Copper Brown (42) | Tarnished Red (47) |

---

**NATURAL METALS**
Due to their beauty, durability and time-proven performance, natural metals are a preferred material used in architecture. Natural metals will weather and patina naturally over time, adding character and aesthetic appeal to any building design. In addition to natural metals, ATAS offers acrylic coated Galvalume®, and anodized aluminum as standard available materials.
