A refined look, precisely designed.

Dutch Seam®

A continuous standing seam panel with an integral seam and timeless appearance.
There's a difference with Dutch Seam®

Prior to forming, Dutch Seam® is precision leveled, and with options such as embossing, stiffening ribs, and striations, the potential of visible oil canning is reduced.

Features

APPLICATION
- Precision leveling prior to forming
- Fasteners and clips allow panel to float without causing stress
- Crating for jobsite handling/staging
- Lock and seam are integral part of the panel with no seam caps to install
- Does not require mechanical field seaming
- Can be fastened directly to purlins or solid substrate
- After completing panel interlock, panels can be easily moved into cleats at valley and eave conditions

LONGEVITY
- Fire resistant – will not burn or support combustion
- May be an insurance advantage
- Will not warp, crack, or rot
- Industry leading long term warranty
- Resistant to high wind, torrential rain, heavy snow and ice loads
- High quality and time-proven painting and pretreatment technologies
- PVDF Coating System

PERFORMANCE STANDARDS
- Environmentally friendly - ENERGY STAR® qualified colors available. Contact ATAS for current color listings
- Tested in accordance with UL 790/ASTM E 108, UL 580, TAS 125, ASTM E 1592, ASTM E 330, ASTM E 283, ASTM E 331, TAS 100, AAMA 501.1, UL 2218, ASTM E 84 Flame Spread, ICBO AC 166 Penetration
- FBC Approval
- MCA Roofing Certification
- High reflectivity of panels which increases energy efficiency
Specifications

Dutch Seam® SKU: MRD110, MRD150, MRD194

Material
.032, .040 aluminum; 24, 22 ga. metallic coated steel; 24 ga. 55% Al-Zn alloy coated steel with acrylic coating; 16, 20 oz. copper*: .7mm zinc* (MRD110 only)

Panel Width
11", 15", 19 1/4" (Stiffening ribs standard; specify without ribs or with striations)

Panel Length
Cut to customer specifications with a minimum of 2'-0", maximum to transportation limitations and/or product and project design considerations

Seam Height
1 1/2"

Texture
Embossed, Smooth

Finish
Kynar 500® PVDF or Hylar 5000® PVDF

Colors
Choice of over 30 stock colors

Anodized
Clear, Dark Bronze

Accessories
A complete line of trims available in matching colors, gauge, and finish or as specified

Minimum Slope
2:12

Custom Capabilities
Tapering

Optional sealant is available. Stiffening ribs standard, specify without. Specify with striations.

Dutch Seam® Design Advantages

Dutch Seam® is a highly engineered wind and rain resistant panel system, designed to last lifetimes.

Integral lock and seam design guards against wind-driven rain and wind uplift, while still allowing for air permeability.

Raised Clip

Clip at low point allows loads to be imposed on anchor clip, preventing rotation of seam and providing stronger interlock during an uplift event.

Flat Clip

Raised Clip

Flat Clip
