**Wawa**  
Street, MD  
Rapid-Lok Fascia in Brite Red  
Box Gutter in Ascot White

**ON THE COVER**  
Ross Appliance | Collector Box, Corrugated Downspout, and Opaline in Brite Red
Features applied to all products

Tested per ANSI/SPRI/FM 4435/ES-1 as required by code:
- Fascia systems tested per RE-1 and RE-2
- Coping systems tested per RE-3

Systems include:
- Concealed splice plates
- Pre-punched fastener slots and holes
- Required fasteners

Furnished in:
- 12'-0" standard lengths (custom lengths available)
- Large variety of standard materials, gauges and colors:
  - 24 and 22 ga steel
  - .040, .050, .063 aluminum
  - Stainless steel, zinc, and copper
  - Over 30 standard 70% PVDF paint colors (not standard on all gauges)
  - Custom colors and gauges available

True curved radius and vaulted available on most products

Accessories available - standard cinched and sealed; optional in fully welded and post painted:
- Miters, tees, and zees
- End closures and end terms
- Peaks and valleys
- Custom conditions

Job-Specific Fabrications

In addition to our full line of standard items, ATAS International offers a wide range of custom fabrication capabilities to fit any project’s needs. Radiused sections and accessories, including miters, T-miters, end caps, and end closures are available for all perimeter edge products. Options include fabricated and sealed or welded and 70% PVDF painted to match. Available in over 30 70% PVDF stock colors, our products come equipped with industry expertise and technical support, including design and development assistance, product specifications guidance and installation support.
FASCIA

DRIP EDGE FASCIA
- Continuous 22 ga steel cleat with flange for easier installation and proper location
- Standard 90° roof flange or requested roof slope
- Four standard sizes - 3.25”, 4.75”, 6.25”, 7.75” (custom sizes available)

RAPID-LOK FASCIA
- ATAS’ best fascia system that installs quickly on all single-ply membranes without strip-in plies or heat welding
- Continuous 20 ga retainer with snap-on cover
- Six standard sizes - 4”, 5.5”, 7”, 8.5”, 10”, 11.5” (custom sizes available)
- 30-year 150 mph windstorm warranty

EDGE-LOK 2 FASCIA
- Two-piece fascia system for EPDM, PVC and other flexible single-ply membranes
- Continuous 24 ga steel spring cleat with snap-on cover
- Five standard sizes - 5.75”, 7.25”, 8.75”, 10.25”, 11.75” (custom sizes available)
- 20-year 120 mph windstorm warranty

GRAVEL STOP FASCIA
- Continuous 22 ga steel cleat with flange for easier installation and proper location
- Standard 0.75” cant or custom height as requested
- Four standard sizes - 4”, 5.5”, 7”, 8.5” (custom sizes available)

RAPID-LOK EXTRUDED FASCIA
- Performance and installation ease of Rapid-Lok with continuous extruded aluminum retainer
- Six standard sizes - 4”, 5.5”, 7”, 8.5”, 10”, 11.5”
- Snap-on cover
- 30-year 150 mph windstorm warranty

EDGE-LOK 3 FASCIA
- Three-piece fascia system for Modified and BUR roof systems; also suited for heavy or stiff single-ply membrane systems
- Continuous 24 ga steel cant
- Continuous 22 ga steel cleat with snap-on cover accommodates thick roof membranes
- Five standard sizes - 6”, 7.5”, 9”, 10.5”, 12” (custom sizes available)
- 20-year 120 mph windstorm warranty

For more information: Visit www.atas.com/fascia
**CONTINUOUS CLEAT COPING**

- Continuous 22 ga front cleat with cant to build in slope and flange for easy installation
- Cover is pre-punched with slotted fastener holes to allow for thermal movement
- Gasketed screws painted to match cover

**RAPID-LOK COPING**

- Snap-on system with no exposed fasteners
- Heavy 20 ga chairs with factory installed splice plates
- Guttered “Dry” splice plates eliminate the need for caulks or tapes at the joints
- 20-year 120 mph windstorm warranty

**RAPID-LOK ULTRA COPING**

- Designed for the highest wind performance and longevity
- Continuous extruded aluminum cleats at the face and back, with a snap-on coping cap
- Guttered “Dry” splice plates eliminate the need for caulks or tapes at the joints
- 30-year 150 mph windstorm warranty

WATER CONTROL

COMMERCIAL GUTTER

• Fabricated in several styles and sized to meet your needs
• Internal gutter straps are easy to install and provide a clean exterior appearance
• Optional external brackets, color matched to the gutter, are available
• Standard 12’-0” and 24'-0” lengths with lengths up to 40'-0” available

DOWNSPOUT

• Offered in several sizes to meet your water control needs
• Seamed to maximize water control
• Downspout straps are included, and outlet tubes, elbows and offsets are available

SCUPPERS AND COLLECTOR BOXES

• Scuppers are made-to-order to fit opening
• Two standard collector sizes - 12” x 12’ x 8” and 18” x 18’ x 12” (custom sizes available)
• Blanked and formed using CNC equipment for precise uniform pieces
• Standard cinched and sealed, or optional fully welded and post painted

ULTRA HP GUTTER

• Designed to resist high winds and tested per ANSI/SPRI GT-1 to prove it performs
• Available in several styles and sizes, all of which feature ATAS’ high performance internal bracket for superior wind resistance
• Standard 12'-0” and 24'-0” lengths with options up to 40'-0” available

SUPPLEMENTAL EDGE SYSTEMS

FLOW-THRU GRAVEL STOP

- Perforated for proper water flow and gravel or ballast retention
- 3.75” standard face height (custom available)
- Available in .040 and .050 aluminum

DRAIN BAR

- Slotted for proper water flow and ballast retention
- 3.5” and 5” standard face height (custom available)
- Offered in .080 or .125 mill aluminum (custom post painting available)

FASCIA EXTENDER

- Provide additional coverage (bigger face) when installed below fascia or coping
- Continuous 22 ga steel cleat
- Size made-to-order as required

LEDGE CAP

- Cover the top of brick ledges or other projections
- Can be flashed to the wall or under the face of a coping or fascia
- Continuous 22 ga steel cleat
- Size made-to-order as required

1-PIECE COUNTER FLASHING

- Simple and economical one-piece installation
- Surface mount, reglet, or through wall
- Standard 3.5” or 5” (custom available)

2-PIECE COUNTER FLASHING

- Receiver with a snap-in skirt that can be removed for reroofing or maintenance
- Surface mount, reglet, or through wall
- Standard 1.5” receiver with 5” skirt (custom available)
