Technical cross-section diagram of a window installation. The diagram illustrates the assembly from the exterior ground level down to the interior finish. Key components and dimensions are labeled as follows:

- Window Interior Finish**: The topmost interior layer.
- Backer Rod**: A foam rod used for sealing.
- Angle with**: A component used for sealing and support.
- Metal Wall**: The main structural wall.
- Membrane**: A layer applied to the wall.
- Angle (From**: A component used for sealing and support.
- Water and**: A component used for sealing and support.
- Vertical S**: A component used for sealing and support.
- Horizontal**: A component used for sealing and support.
- #10 x 5/8"**: A screw used for securing the assembly.
- Angle Trim**: A component used for sealing and support.
- Butyl Tape**: A sealant used for waterproofing.
- J Channel**: A component used for sealing and support.
- Exterior G**: A component used for sealing and support.
- #14 x 7/8"**: A screw used for securing the assembly.
- Water Res**: A component used for sealing and support.
- Grand C P**: A component used for sealing and support.

Dimensions and other labels include:

- 1/2" W.H.**: Width of a specific component.
- 3 1/2"**: A vertical dimension.
- 3"**: A horizontal dimension.
- ***: A note or reference symbol.

Technical drawing of a drainage system. The top part shows a vertical pipe with a U-shaped trap. Below this, a horizontal pipe is shown with a series of vertical risers. The bottom part shows a series of horizontal pipes with a series of vertical risers. The drawing is a cross-section of a wall and floor, showing the internal plumbing structure.

A diagram of a 90-degree angle. The horizontal leg is labeled "3\" with a dimension line. The vertical leg is labeled "Variable" with a dimension line. A small asterisk "*" is placed near the vertex of the angle.

Note: * denotes color side.
