WOODLAND SERIES | COLOR CHART

Add the warmth of wood with the durability of metal to your next project. ATAS offers four classic woodgrain patterns with a 70% PVDF coating. Available in .032 aluminum.

Birch (57)

Cedar (54)

Driftwood (53)

Walnut (55)

These are color-matched replicas of the actual color/pattern. These replicas are matched to the actual colors as closely as modern printing allows. Please contact ATAS to request metal color samples. In selecting a color for a project, ATAS highly recommends requesting exact color chips for true color representation. Lead time for samples may vary based on availability of material. ATAS is not responsible for the selection of color from product boards, color chip replicas, brochures or the website.
